

Everbright Greater China Opportunities Fund

(A Sub-Fund of China Everbright Fortune Fund Series)

As of 30 June 2020

Factsheet

Important Note:

- The Fund primarily invests in the Hong Kong, China and Taiwan markets and may be adversely affected by negative conditions in any of such markets. The Sub-Fund typically offer less diversification and is therefore considered to be more risky than a more diversified investment fund. The Sub-Fund may be adversely affected by or depend heavily on the performance of the relevant country, or region. Investors should also be aware that the Sub-Fund is likely to be more volatile than a broad-based fund, such as a global or regional equity or bond fund, as it is more susceptible to fluctuations in value resulting from adverse conditions in its respective country/region.
- The Fund is an investment fund and invests in equity and debt securities. There can be no assurance that the Fund will achieve its investment objective. Investment in equity securities is generally subject to market risks and may lead to greater volatility in price whereas investment in debt securities is not the same as deposits with a bank.
- The Fund invests in emerging (or frontier) markets, investors should be aware that this is likely to entail a higher risk level than developed markets.
- The Fund will invest in equity securities (including ETFs) and will be subject to risks that apply to equity securities in particular. The risks associated with investments in equity securities may be high, because the investment performance of equity securities depends upon a number of factors which are difficult to predict. Investors should note that the Sub-Fund may experience a fall in value.
- Investments in debt securities will be subject to the risks associated with debt securities. If the debt securities held by the Sub-Fund fall in value, the Sub-Fund's value will also be adversely affected.
- You should not base your investment decision solely on this document.
- Please read the offering document including EM & KFS for details of the fund.
